

Power[®]

The World's Most Adaptable Shed.[™]

Our Story.

The idea for Power Sheds was born in 2019 when our founders, Jack Sutcliffe and Simon Hobson, noticed that consumers shopping for a shed often found that quality is hard to discern, particularly online.

Shed brands seem to compete on the same messages - sales and promotions.

At Power Sheds, we want to become the online benchmark for quality and durability by offering a product with unparalleled simplicity through a brand you can trust.

How we created the perfect shed...

- ✓ Innovative design with a life expectancy of over 25 years
- ✓ Equality and diversity in manufacturing
- ✓ Backed by the European Union
- ✓ Responsible & sustainable purchasing
- ✓ Best of British quality
- ✓ Multiple national award winners
- ✓ Delivery you can trust

ABOUT POWERSHEDS

Sustainability & Community.

We strive to make the world a better place.

Our Timber Three Trees Planted For Every One Cut Down.

We have a small, dedicated number of timber suppliers and forests who we work with. These are very carefully selected using a thorough and comprehensive appraisal to ensure they comply with our procurement policy and supply chain documentation.

Our work with our supply chain and the timber suppliers we choose can easily be demonstrated as our suppliers plant three trees for every one cut down.

Our End pac

Our sheds are
unnecessary
no box to dis
warp, and no
delivered pro
Very few oth
free from pac

Our Packaging and unnecessary wrapping.

Sheds are delivered on a recycled pallet with no unnecessary packaging. This means for our sheds, there is no need to dispose of, no non-biodegradable plastic shrink wrap and no other plastic covering or protection that the shed product doesn't need!

At Power, we can deliver a palletised product over 99% without unnecessary packaging.

Our Footprint Carbon Neutral by 2024.

As a company, we recognise the importance of our environmental impact and are actively seeking ways to reduce our carbon footprint. With this in mind, we have launched an internal Footprint programme to find ways we can reduce our carbon footprint and be more environmentally friendly as a company.

The main areas that we chose to focus on are; travel, consumables and waste.

Our Community Supporting local people.

We believe we have a huge responsibility to support our local community – and we do so in a number of ways. Firstly, we ensure diversity and inclusion is at the forefront of any recruitment.

By significantly deskilling our manufacturing processes with the use of technology, machinery and automation, we have been able to eliminate the requirement of skilful / expert labour.

This has reduced barriers to entry for new staff and allowed us to employ large numbers of staff from the local area who had been struggling to find work. After just 2.5 years of being in existence, we had managed to have over 90 members of staff employed.

PRODUCTS

PRODUCTS

Power[®] Pent Potting Shed.

Potting Shed  | 

OVERVIEW

The Power Pent Potting Shed can be configured how you want by allowing you to place the doors at either end, which you can do as you assemble it. Toughened glass and two tier shelving included as standard.

SIZES AVAILABLE

- 4x6
- 6x6
- 8x6
- 10x6
- 12x6
- 14x6
- 16x6
- 18x6
- 20x6
- 4x8
- 6x8
- 8x8
- 10x8
- 12x8
- 14x8
- 16x8
- 18x8
- 20x8

FEATURES

All potting sheds come with toughened safety glass as standard.

The toughening process improves the structural durability and thermal strength of the glass, in turn increasing its resilience and ability to withstand heat.

What makes Power[®] different?

Power 10 Year Guarantee

Every shed is guaranteed for 10 years against timber rot, decay or insect infestation.

High Grade Scandinavian Timber

Tongue and groove throughout - walls, floor and roof!

Convenient FREE Shipping & Returns

Super fast delivery and you get to choose the delivery day.

Heavy Duty Framing

44x28mm and rounded at each corner to give a stunning finish.

Additional Height

That extra bit taller to give you ample headroom inside.

Toughened Glass

500% more resistant to heat and shock than ordinary glass.

Galvanised Ironmongery

Ensures the shed lasts longer and minimises oxidation.

Corner Bracing

Added to every wall panel on your shed to maximise strength.

High Performance Felt

Special 'polyester' backing ensuring it lasts longer.

Advanced Preserver

Our special formula wood preserver has a wax additive for additional protection.

Adaptable Configuration

Modular flexibility - assemble the doors and windows in the configuration you want.

Roof Tuss Support

Apex sheds come with roof trusses to stop the roof sagging even after years of use.
